

ST. TAMMANY PARISH

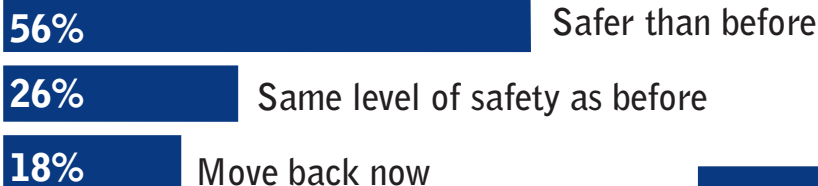

Residents are opposed to rebuilding in high-risk areas and support incorporating storm protection into recovery plans—as long as other needs do not suffer because of it.

Effects of Katrina

St. Tammany was one of the most severely affected parishes in Louisiana with 38,900 damage claims. Over 12,700 households or 16% of the original parish population—were evacuated.

WHEN WILL WE RETURN?

WE TREASURE...

...our recreational and wildlife areas, the old town ambiance, and the Lake Pontchartrain lakefront.

PARISH TOP PRIORITIES:

- #1 Build better levees & other hurricane protection
- #2 Restore coastal areas
- #3 Attract new businesses to the area
- #4 Make highway and street improvements

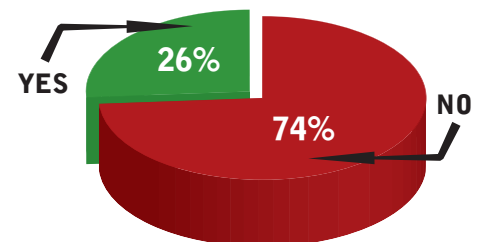

WE STRONGLY AGREE

- 97% We should rebuild in low-risk areas first
- 97% Zoning and land use plans should be used to guide rebuilding
- 94% Changing our parish plans is an option if it makes the region stronger
- 93% Public buildings should not be rebuilt in high-risk areas
- 84% Some areas are too risky to rebuild
- 74% It is not essential that residents be allowed to return to their original home sites

Should we ensure that residents can return to their original home sites?

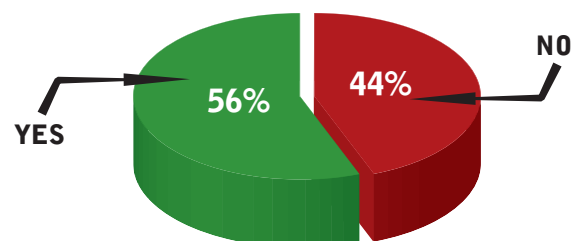

SPLIT DECISIONS

- 56% We should prioritize flood protection over other needs

Should we prioritize flood protection over other needs?
